\*1: Paring is necessary from the smartphone to PENPAL PP-1 when you first establish the

#### **Annotations:**

- Above are shown a selection of smartphones, that had been tested by Olympus. If your smartphone is not listed, but supports either the OOP or BIP protocol it is likely that it is compatible with the PENPAL. Please check the compatibility of your smartphone before purchase.
- If a PIN-CODE(PASS-KEY) is requested, please enter '0000'.
- The PENPAL PP-1 works with the Accessory Port 2 only
- If you cannot send images to the smartphone, please set the paring from the smartphone to PENPAL PP-1 when you first establish connection.

#### **The PENPAL PP-1 does not work with following devices:**
